Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown

Comments: The UAA survey was conducted in August 2008 and there was no WBCR observed. A large cooler was cited on the banks of the creek indicating SCR. No interviews were conducted during the 2008 UAA.

Is the evaluated use attainable? ☒ Yes ☐ No

Comments: The stream did not meet the maximum or median depth criteria for WBCR. In the 2005 UAA maximum depth was met and evidence of SCR use was present, therefore the committee recommends that WBCR be retained and SCR be added.

Committee Recommendation:

☐ Add Use ☒ Retain Use ☐ Remove Use
☐ Modify Use ☐ Inconclusive
